Details of the field of study

The above named candidate has successfully completed the general secondary education according to the course of study for the class within the international programme. The course of study consists of the subjects of the international programme of the University for Cambridge International Examinations, the level GCE: Cambridge International AS and A Levels. Cambridge International AS and A Levels are equivalent to the AS and A Levels taken by learners in the UK, and are accepted for entrance to all UK universities and most US universities.

The candidate has successfully completed their studies by a combination of the school leaving exam in Slovak Language and Literature and examinations from the subjects which follow the international programme. The candidate has gained a comprehensive education and developed the key competencies for lifelong learning. He/she has gained the communication skills in English language, which allows him/her to apply for study abroad.

In the level GCE, students study at least 3 subjects and select a standard level – AS Level or higher level – A Level. Each subject that a learner takes at AS or A Level receives a separate grade. Grades are benchmarked using internationally recognised grades, which have clear guidelines to explain the standards of achievement.

Suggested fields of further study

Learners use Cambridge International AS and A Levels to gain places at leading universities worldwide or to continue in the post-secondary qualifying study or higher vocational study in vocational schools.
